

Skill:

Subtract the amounts from each other and write the answers in your book.

3. £ 4.57 - £2.35 =

4. £8.56 - £1.25 =

5. £6.48 - £2.95 =

6. £5.02 - £1.75 =

7. £7.53 - £1.28 =

Dora bought these muffins:

Muffins cost 35p. How much did Dora spend?

If she bought two more, how would she have spent all together?

If she spent £2.10, how many muffins did she buy?
